

Parker Torqmotor™

Heavy duty high torque/low speed hydraulic motors

Parker Torqmotor™ are ideally suited for tough jobs under tough conditions, offering high starting torque and trouble-free service. Unique design features allow the fluid to lubricate and cool all internal rotating parts of the motor, contributing to outstanding efficiency and long service life.

BENEFITS:

- Easy to install
- Excellent low speed characteristics
- High efficiency
- High load capacity
- Built-in wear compensation
- Long service life

APPLICATIONS:

- Potato harvesters
- Turf machines
- Balers
- Demolition equipment
- Grabs

With the 4 main series of Parker Torqmotors™ you can always find the right motor for your specific application needs.

Series	Displacement	Torque range	Max. speed range
TE	36 – 392 cm ³ /rev	55 – 435 Nm	191 – 930 rpm
TF	81 – 477 cm ³ /rev	215 – 680 Nm	195 – 693 rpm
TG	140 – 958 cm ³ /rev	400 – 925 Nm	118 – 660 rpm
TH	140 – 958 cm ³ /rev	400 – 925 Nm	118 – 660 rpm
